Commented [KM1]: These lines look uneven when I look at your resume. Either fix or omit.

Commented [KM2]: Rule of thumb is you are listing in order of proficiency. If you want to stress these 4 that is great, but you can omit 'proficient' and 'attained basic knowledge of' – they will assume since you are listing in 2 bullets there is a different level of knowledge here.

Commented [KM3]: Ensure your margins are lined up on the left.

Commented [KM4]: Write out November to keep consistent

Commented [KM5]: Did we discuss adding personal projects or academic projects to explain some of the tech you have listed at the top?
If you have personal projects, those should come after the tech skills section. If not, I would add some academic projects under education and move the whole section before work experience.

Commented [KM6]: Capitalize Involvement if you are keeping
